Norway Maple Tree

Special New Faassen Redleaf Maple

We have been growing this special strain for the past five years from selected buds. We believe the tree holds its color, that the color is brighter and the leaves glossier than the regular Faassen. It is fast growing for a redleaf maple.

We shipped a few this year to all parts of the country. Our supply is limited but we can supply some to all our regular Maple customers.

Prices: Add 25c to one-year trees

FAASSEN RED LEAF MAPLE
